Catalan - Fluent

Japanese - Elementary

ABOUT ME

Tools TD with an IT background, focused on building pipeline tools and workflow automation for animation and games. I enjoy supporting production pipelines through creative problem-solving and bridging artists and engineering teams.

PERSONAL PROJECTS

- **USD Animation Exporter (Maya):** Tool that allows exporting baked character animations in USD format with automated versioning.
- **Texture Importer (Houdini):** Developed a utility to automate folder-based texture mapping and material creation.
- **Recolor (Substance Painter):** Created a plugin to support fast color adjustments across layers without using standard adjustment layers.
- **Automatic Outlines (Houdini):** Developed a procedural tool to generate camera perspective line art from 3D geometry.

WORK EXPERIENCE

TECHNICAL PROJECT MANAGER

Esteve Teijin | October 2025 – Present

- Act as the technical liaison between internal teams and external providers coordinating requirements, integrations and workflow alignment.
- Monitor schedules, dependencies and blockers to maintain project progress and ensure timely delivery.
- Assist with technical analysis, troubleshooting and solution design to improve internal workflows and system reliability.

IT CONSULTANT

Esteve Teijin | August 2023 – August 2024

- Improved team workflows by identifying automation opportunities and developing internal tools, increasing efficiency by 40%.
- Built and optimized reports in Salesforce, reducing manual reporting by 70% across teams.
- Provided technical support and documentation to ensure smooth adoption of new tools and processes.

TECHNICAL PROJECT MANAGER

Esteve Teijin | September 2021 – August 2023

- Led development of a core internal application, redesigning data structures and user-friendly interface, improving operational efficiency by 50%.
- Automated migration of 1M+ records across platforms with zero errors, streamlining internal workflows and system integration.
- Acted as technical liaison between 10+ teams, translating requirements and ensuring alignment across stakeholders and engineers.
- Monitored project risks and milestones, improving delivery transparency and process reliability.

IT HELP DESK

Esteve Teijin | September 2020 – September 2021

- Troubleshot internal systems and resolved 90% of 250+ daily tickets, reducing repeat requests by 50%.
- Coordinated MySQL to Salesforce data migration ensuring 0% errors.
